AT A PARTICLE OF SKIN ON BODY

Case of Eczema Doctor Had in 40 Years—For Six Months Father Expected His Baby Die—Blood Oozed Out All Over Body—Had to Be Wrapped in Silk and Carried on a Pillow—She Is Perfectly Cured.

FOR RECOMMENDED CUTICURA REMEDIES

A little girl was born two weeks before time and my wife died four hours after the birth of our child and I had two doctors attend the baby on artificial foods. Six months after birth she broke out and I had two doctors in attendance. There was not a particle of skin left on her body, the blood oozed out just as it was and we had to wrap her in silk and carry her on a pillow for ten weeks. For the most terrible sight I ever saw and for six months I looked for go to her mama, but thank God she is alive and well and she will be three years old on the 27th of December and has never a sign of the dread trouble since. I used every known remedy to relieve her suffering, for it was terrible. Dr. C. gave her up and I went to C. F. and got Cuticura Ointment and Soap and he and Cuticura Soap cured her. I have always been a devotee of Cuticura Ointment and Soap. As nearly as I can remember, I used eight cakes of Cuticura Soap and three boxes of Cuticura Ointment. You must take into consideration that this was an exceptional case, for a child and good doctor said that it was the worst case that had come to him in 40 years. I have always been a devotee of Cuticura Soap to keep her skin soft and her hair pure complexion. James Smith, Wood and Metal Pattern, Box 234, Buena Vista, Va., Oct. 22, 1906.

DESIGN FOR GOWN OF CLOTH, EOLIANNE, OR SILK

The sketch shows a very pretty style for a street or house frock, the bodice being a jumper cut in one with the sleeves, and seamless. The front and back are gathered under the girdle, the sides hanging free. The embroidered "form" used to outline the yoke

was worked in chenille, and blended shades in silk threads, the model frock being in light brown cloth, with the embroidery in shades of brown, old rose and green. The skirt opened down the side of the front gore and had a row of cloth-covered buttons down its entire length.
